PROFESSIONAL SUMMARY

B.Tech Graduate in CS (AI) and Full-Stack Web3 & MERN Developer with hands-on internship experience. Skilled in Smart Contracts (Solidity), MERN Stack (MongoDB, Express, React, Node), REST APIs, and JWT authentication. Seeking an entry-level Web3 / Software Developer role to build secure, scalable applications.

TECHNICAL SKILLS

Blockchain & Web3: Solidity, Ethereum, Smart Contracts, ERC-721, ERC-20, Web3.js, IPFS, Hardhat, Remix IDE, Ganache, Alchemy
Frontend & Backend: React.js, Node.js, Express.js, MongoDB, RESTful APIs, JWT Auth, JavaScript (ES6+), HTML5, CSS3, C/C++, Java
Tools & Core Concepts: Git & GitHub, VS Code, Postman, Netlify, Data Structures & Algorithms, Smart Contract Auditing, DeFi

WORK EXPERIENCE

Blockchain Developer Intern | Codec Technologies | May 2025 – July 2025

- Deployed and tested 10+ smart contracts using Solidity on Ethereum via Remix IDE and Hardhat with zero critical vulnerabilities.
- Implemented ERC-721 contracts for NFT Marketplace enabling mint, buy, and sell with on-chain ownership verification.
- Conducted code reviews and testing with Ganache; documented contract architecture to streamline team onboarding.

Blockchain & Web Developer Trainee | NullClass | Aug 2025 – Oct 2025

- Built a Real-Time Crowdfunding DApp on Ethereum for transparent, tamper-proof fund tracking via smart contracts.
- Integrated React.js frontend with Solidity contracts using Ethers.js in a full-stack DApp architecture.

PROJECTS

MERN Stack Task Manager (Full-Stack Major Project)

Built a full-stack Task Manager with JWT auth, bcrypt encryption, and role-based access control.
Developed Express/MongoDB REST APIs and a React UI with search, priority filtering, and live analytics.

Real-Time Crowdfunding Platform

Built a trustless crowdfunding DApp with goal-based automated fund releases and automatic contributor refund mechanisms if campaign targets remain unmet.

NFT Marketplace DApp

Engineered a decentralized marketplace utilizing ERC-721 standards for minting, listing, buying, and selling NFTs with IPFS metadata storage.

Blockchain Based Certificate Verification System

Deployed an Ethereum-based credential verification DApp allowing public, tamper-proof academic record verification without centralized intermediaries.

Web Utility Applications (Task Manager & Password Generator)

Created modular frontend tools with custom validation algorithms, dynamic DOM updates, and fully responsive layouts hosted on Netlify.

EDUCATION

B.Tech - Computer Science (Artificial Intelligence)
Greater Noida College 2022-2026

CERTIFICATIONS

- **Blockchain Technology** – Codec Technologies (2025)
- **Full Stack MERN Web Development** – InternsElite (2026)
- **Blockchain Fundamentals** – 101 Blockchains (2024)
- **Bootcamp Training** – ConsenSys Academy (2024)
- **Basic Bootcamp Training** – ConsenSys Academy (2024)
- **C/C++ Programing** – Incapp (2023)
